Date: 12.10.2026

IT Administrator (m/f/d)

Marble Imaging: We are a German NewSpace company, combining engineering, aeronautics & Earth Observation to address global challenges from community resilience, climate adaptation and disaster management. Marble Imaging is developing its own constellation of Very High Resolution (VHR) multispectral satellites designed to provide frequent global coverage and enable advanced Earth Observation analytics. The first Marble satellite is scheduled for launch in Q1/27.

We are a fast-growing and diverse team, comprised of highly motivated professionals from various backgrounds. We share a common vision to make EO data and analytics more accessible and understandable so they can be incorporated into rapid-decision-making.

The Team: You will be part of Marble Imaging's IT team, supporting colleagues across the company and working closely with engineering teams to operate and develop our IT infrastructure.

Location: This full-time position is based in Bremen. [On-site]

Your role: As part of our IT team, you support the operation and further development of Marble Imaging's IT infrastructure and processes. You help keep daily operations running smoothly and contribute to building the structures that allow us to scale securely and meet the regulatory requirements of operating an Earth observation satellite system.

Your main tasks:

- Operate and maintain our IT infrastructure, including client devices, network, identity and access management, and collaboration tools
- Manage a heterogeneous client landscape of Windows, macOS and Linux devices: provisioning, patch management, software standards and lifecycle
- Support the administration of our cloud environment and assist engineering teams with infrastructure requests
- Contribute to documenting and improving IT processes such as onboarding/offboarding, asset management, access rights, backup and recovery, and incident handling
- Implement and operate security measures in line with BSI standards and support the IT-related parts of our SatDSiG compliance work
- Provide IT support to colleagues across the company as part of the team's support rotation
- Help evaluate new tools with a view to security, data sovereignty and cost

Date: 12.10.2026

Your profile:

- Completed training or degree in IT (e.g. Fachinformatiker Systemintegration, computer science) or equivalent professional experience
- Several years of hands-on experience in system administration, ideally in a growing company or startup
- Solid knowledge of Microsoft 365 administration, networking (firewalls, VPN, VLANs) and at least one of macOS or Linux alongside Windows
- Familiarity with IT security frameworks, ideally BSI IT-Grundschutz or ISO 27001
- Experience with cloud infrastructure (IaaS) and automation or scripting (e.g. PowerShell, Bash, Ansible)
- A structured, documentation-oriented way of working and enjoyment of working closely in a team
- Fluent German and English
- Willingness to undergo a security clearance (Sicherheitsüberprüfung)

Nice to have:

- Experience in regulated environments (KRITIS, defence, space)
- Knowledge of hardware security modules (HSM), PKI or key management
- Experience with MDM solutions for mixed device fleets

What We Offer You Here at Marble Imaging

You will be part of a NewSpace company that is revolutionising the world of EO with its own fleet of European satellites, and have the opportunity to work in a fast-growing, multidisciplinary, and diverse team with a strong desire to change the world.

- Flexible work hours and modern work models
- 30 vacation days
- Short decision paths and room to take on responsibility
- Personal and professional development
- A VSOP (Virtual-Stock-Options-Program) program
- Free snacks and drinks in the office, regular team events
- Contribution to WellPass

Date: 12.10.2026

The Interview Process

We believe in transparency. Here is what you can expect from our interview process:

- **Recruiter Screen:** A 30-minute call with someone from our Talent Acquisition team to explore your background, discuss the role, and answer any initial questions about the company culture.
- **Technical & Domain Panel:** A 60-to-90-minute session with two members of the team for a deep dive into your technical domain expertise, past project achievements, and practical problem-solving approach.
- **Take-Home Assignment: [Optional depending on the role]** A short exercise designed to take no more than 4 hours, followed by a 45-minute discussion call to walk through your solution and trade-offs.
- **Leadership Chat:** A 30-minute conversation with our C-Level to discuss long-term vision, values alignment, and mutual expectations.

At Marble Imaging, we are committed to fostering an inclusive and welcoming workplace. We believe that diverse voices bring diverse perspectives that fuel innovation, creativity, and the ability to tackle global challenges effectively. We encourage individuals of all races, ethnicities, genders, sexual orientations, abilities, and backgrounds to join us in our mission to change the EO world. We are an equal-opportunity employer.

Join us on our mission to explore and reimagine the possibilities of VHR EO based data and analytics and help us tackle global challenges. Contact us for questions and information at recruiting@marble-imaging.de

Please include your earliest possible start date and salary expectations in your application.
